### Peace & Play!

# Quality in Every Detail

We get it, a swing set is a big purchase, one that we believe you should only make once. That is why we use the highest quality materials and products in the manufacturing of our swing sets. Nearly all of our materials are sourced from right here in the USA and we build each set by hand from the ground up.

Our goal is for your children's children to play on your King Swings play set!

# FAQ

## **Q1: What happens if my yard has a bit of a slope?**

We can work with a slope of 12" over 20'. If you have a slope, we will need to dig down and/or block up the tower to stabilize it

## **Q2: Do you see any sway in a vinyl swing beam?**

Yes, all wood based swing beams sway when being used. This is normal! Just like a big tree swaying in the wind, the lumber will flex a bit but will not break.

## **Q3: Does customizing cost extra?**

No. We love to help parents design their own swing set so there is no cost for customizing. The cost only changes as you remove or add components.

## **Q4: How easy is vinyl to clean?**

Very easy. Just spot wash as needed with a simple cleaner or give it a gentle power washing.

## **Q5: Where do you deliver and install?**

We deliver to PA, NY, DE, NJ, MD, CT, VA, OH, NH, ME, VT, RH, NC, SC, TN, GE, MA, IN, IL, WV, MI, FL, and more!

## **Q6: Do we get to pick our colors?**

Yes, you can mix and match colors. The one firm rule for colors is that ivory vinyl has brown decking while bright white vinyl has gray decking.

# Why King Swings?

## Quality of Products & Durability

Being parents ourselves, King Swings knows the toll children can take on objects. That is why we only use the best material to build our swing sets. Trex decking, Georgia yellow pine, stainless steel hardware, and much more make our sets withstand children, storms, and most importantly, time.

Since we use the best, parents can enjoy the swing sets with their children. Go ahead, swing, climb, and slide; the set is strong enough for you to play alongside your children.

## Highest of standards & safety

Children should be able to play outside without the need of mom and dad constantly monitoring them. This is why we make our equipment as safe as possible and also why we encourage parents to customize their play set to suit the needs of their children.

## Customer Service & Warranty

We get it, playsets can be a big purchase. This is why we stand behind our work with a hefty warranty. Each vinyl set has a **6-year warranty** on all parts and our workmanship. The lumber inside the vinyl is covered by a **lifetime warranty** against rot, decay, and insect damage. The vinyl itself has a **20-year warranty** against discoloration and fading.

# Playhouses

Our playhouses have captured the imaginations of the whole family!

What do you need to know about our playhouses to get started? Here is some important information:

- ◆ These large playhouse sets are very heavy. We will use a mini skid steer to maneuver your set into place. If your yard is soft or if they must use tight turns, there will be scuffs left in your yard. This will be understood as an acceptable risk of getting the set installed.
- ◆ While beautiful, the bright white will show any mud from the road, bug splatters, or other dirt from the manufacturing and delivery process. A simple scrubbing with a cloth and cleaner will remove the dirt from your playset.
- ◆ The size of the playhouse is determined by measuring across the tower the playhouse sits on. The dimensions of the playhouse are approximate.
- ◆ Our playhouses are available in the following sizes: 4' x 6', 6' x 6', 8' x 6', 8' x 8'
- ◆ All playhouses come with 5' tall walls, and the tower they sit on can be 5', 6', or 7' tall.
- ◆ Big playhouses require flat land for optimal installation.

Watching our playhouse product videos and browsing our standard sets will give you a great start! If you have questions, that is what our swing set design team is there for, so fire away!
