Poly Furniture—There are solid reasons it's growing in popularity each year. First is its beauty, coming in a wide selection of colors from bright tropicals to more traditional wood hues. Second is its strength and durability, lasting for decades without rotting or cracking. Third, it's so easy to care for. Just use mild soap and water, rinse it down, and you'll see that the gorgeous color remains nearly undiminished season after season. One more reason to buy poly is it helps keep our environment clean by using milk jugs that would otherwise end up in landfills.

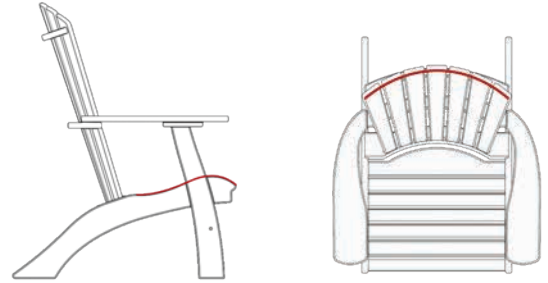

Poly Lumber has a lot of advantages over wood. It won't rot, splinter or crack, and it's impervious to insect damage. And since the color goes all the way through, you won't see tiny nicks or scratches that need touching up. Poly is versatile. From chairs to dining tables, from swings to settees, you can completely equip your out-door space with a full complement of poly furniture and accessories.

So sit down with your favorite beverage, prop your feet up, and start planning the patio or deck of your dreams right now.

The *King Casual* Difference

Comfort to exceed your expectations

Contoured seat and back for unmatched comfort.

Minimal Exposed Fasteners

At King Casual, our design department utilizes unique methods of hiding hardware.

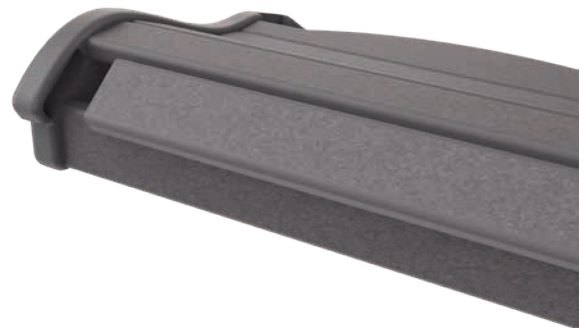

Stainless Steel Hardware

We use all marine grade stainless steel fasteners.

Mortise and Tenon Construction

Mortise and tenon joints are strong and stable joints that have been used for thousands of years in woodworking.

CNC Machined Parts

All of our parts are cut on state of the art CNC machinery to give each component a perfect edge finish and fit.

Product Care & Maintenance

King Casual Furniture manufactures casual outdoor furniture from recycled plastic lumber (RPL) because it's a durable, environmentally-friendly alternative to traditional lumber. The material we use is made from an extremely high performance polymer that doesn't require sealing, painting or staining. It will not rot or splinter, and contains UV inhibitors that resist fading. It contains no filler, such as wood fiber, that would cause moisture absorption and promote bacterial growth. The recycled material used in our plastic lumber is a combination of consumer waste and industrial by-products which would normally be disposed of in landfills.

To care for **King Casual Furniture**, simply clean it regularly with soap and water (avoid pressure washing). The stainless steel fasteners used to assemble your furniture are practically maintenance free under normal conditions. (We use only the highest quality stainless fasteners; however, in coastal areas, the high salinity environment may cause corrosion, and eventually fasteners will rust if not washed and rinsed with fresh water on a regular basis.) Avoid using harsh chemicals to clean your furniture.

Limited Warranty

King Casual Furniture offers a [limited warranty] (for normal use) against the structural failure of our recycled plastic lumber furniture for up to 10 years for private residential use, and up to [5] years for commercial use (warranty is from the original date of purchase). We further warrant our furniture to be free from manufacturer defects in material and workmanship for up to 1 year from the date of purchase of the original purchaser and this warranty is not transferable to subsequent owners or purchasers of the product. **King Casual Furniture** will, at its discretion, repair or replace defective furniture with the same or similar product (if discontinued) at no charge or a minimal charged for discontinued furniture or parts after an evaluation of the part and/or furniture according to this warranty as outlined.

No cash refunds will be made. Shipping and handling are not covered by this warranty. Customers are responsible for all shipping cost to original dealer or **King Casual Furniture** as required. **King Casual Furniture** reserves the right to review or inspect the product if deemed necessary before processing any warranty related issues at no cost to **King Casual Furniture**.

The structural integrity of the stainless steel fasteners used to assemble our furniture is covered under the normal terms of our warranty. However, stainless steel may rust under certain extreme conditions if not maintained as outlined under our care and maintenance section. Rusting hardware or structural failure due to rusting hardware is not covered by this warranty.

This warranty does not cover failure of furniture which in our opinion was caused by the following: acts of God, accidents, neglect, abuse, improper shipping and handling or loss, damages caused by animals domestic or others, and fading as highlighted above. This warranty also excludes any damage caused by the owner modifying, attempting to fix, or otherwise altering the product or improper use of the product.

Disclaimer: Although extremely durable to the elements, our recycled poly lumber (RPL) furniture may fade when exposed to direct sunlight (especially red, orange, and lime green) and some elements may cause staining of the furniture surface. Fading, staining, and splitting are excluded from this warranty due weather variability or unpredictability and exposure to different climates.

This warranty is void if our care and maintenance instructions were not properly followed. This warranty applies only to the original purchaser of the product who assume full responsibility for proper care, handling, and normal use of the purchased poly furniture.

This limited warranty is the sole and exclusive warranty. No employee, agent, dealer, or other person is authorized to alter this warranty or make any other warranty on behalf of the manufacturer.
