## POLY

Our Poly lighthouses are maintenance free and will not splinter, crack, or fade and never need painting. They are environmentally friendly and made from recycled material.

Choose from a variety of colors and styles to create the Lighthouse of your dreams!

## HYBRID

Our Hybrid lighthouses are made with a Poly top, wood center, and a Poly plate or base. Since the top and bottom are the first to feel the effects of the elements, the Hybrid lighthouse is built to stand the test of time.

Along with the Poly top and bottom, which are maintenance free, you also have the option of a striped and painted scheme.

## WOOD

Our wood lighthouses are built from MDO (medium density overlay), an outdoor sign board that is weather resistant and will last years to come.

## STONE

Our stone lighthouses are durably constructed and attractively designed to mimic the look of a real lighthouse. If you have always been drawn to lighthouses and you would like to have one of your own, our lifelike and real stone lighthouses make the perfect choice. We have a variety of different color combinations to choose from including ivory, black, gray and cherrywood lighthouses.
